Assignment 3

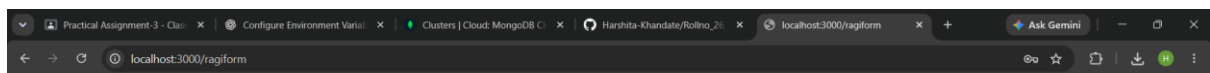

Q1

The screenshot shows a VS Code editor with a project named 'Rollno_26_701_Assignment3'. The file explorer on the left shows a directory structure with files like 'app.js', 'package-lock.json', and 'package.json'. The main editor displays the content of 'app.js', which is a Node.js application using Express.js. The code includes requirements for 'express', 'express-validator', 'multer', and 'express-validator'. It sets up a server on port 3000, uses 'multer' for file uploads, and has a route for '/upload' that handles file uploads and returns a response. The terminal at the bottom shows the command 'node app' being executed, and the output indicates that the server is listening on port 3000.

The screenshot shows a web browser window with the URL 'localhost:3000'. The page displays a registration form with the following fields and options:

- Username:
- Password:
- Confirm Password:
- Email:
- Gender: ☒ Male ☐ Female
- Hobbies: ☐ reading ☒ watching drama ☐ singing
- Upload Profile Pic: Screenshot ... 192449.png
- Other Pics: 2 files

Spider-Man: Brand New Day

Rating: 7.867

Release Date: 2026-07-29

Fighting crime full-time as Spider-Man in a world that doesn't remember him—and the pressure of seeing his old friends move on without him—sparks a change in Peter Parker he may not have the power to control. But that transformation might also be the only thing that can stop a shocking new threat to the city and those he loves - a powerful villain no one can even see.

Renegade Immortal: Battle of the Immortal Slayer

Rating: 7.833

Release Date: 2026-10-01

Trapped in a fatal pursuit within the Celestial Realm of Thunder, Wang Lin faces his ultimate crisis. Watch the underdog defy the odds, flip the script in a world-shaking counterattack, and achieve the ultimate, magnificent feat. SLAYING A CELESTIAL.
